

Zoe's Story

Getting Zoe into riding was never a hard decision for us – I was pony mad as a little girl and Bob's family background is all about horses, with his grandfather a racehorse trainer and his aunty, father, and older brother all jockeys in their time.

Zoe started her journey with Marlborough RDA back in May 2014 when she was 8 years old. Zoe took to riding like a duck to water and she continues to develop her love of horses, as well as great posture and muscle development in her legs. If she isn't riding at the stables, she is found bouncing on her ball at home to help her build her leg strength. Marlborough RDA has really assisted Zoe in being able to have this activity of horse riding as a regular joy in her life. She is incredibly grateful to be able to go and ride every week during the school term and now she is part of the Special Olympics team, she gets the opportunity to attend horse riding events as well.

We are forever grateful for this amazing facility here in Marlborough. It is wonderful that Zoe is able to have activities to go to, to enjoy and to be safe.
